

Notebook Cooler with HUB and Drive

Description

This Notebook Cooler by Delock enables you to cool your notebook during operation and to work more comfortable due to the ergonomic design of the cooler. Connect the cooler to a free USB port of your notebook and the included power supply to the power socket, in order to make use of the different features. The Notebook Cooler provides a CD/DVD drive, a 2 port USB HUB and a 2.5" enclosure, in which you can install an optional HDD. The fan can be switch on and off optionally.
