

# USB 2.0 > DVI – VGA – HDMI Adapter

## Description

The USB 2.0 to DVI Adapter enables you to connect any VGA monitor, LCD, projector to your PC or notebook with the system requirement as below, without need of a second graphics card. By using the included adapter DVI to VGA and DVI to HDMI, you can also connect VGA and HDMI monitors. You can use up to 6 monitors depending on the system support. An extra adapter is required for each monitor.

The USB 2.0 Adapter can mirror and extend the display.
