# PCI / PCI Express card > 2x SATA 2.5 HDD/SSD

Description

This PCI Express card by Delock is a SATA backplane and can either be inserted into a PCI or PCI Express slot. It enables the installation of up to two SATA 2.5 drives. e.g. HDD or SSD. The SATA drives can be connected to the two SATA 22pin ports and over the third SATA 22pin + 7pin port to your mainboard. The card provides holes for cooling the drives and 2 LEDs for access indication. By using the included extension pins you can use an additional PCI Express card and install up to two drives. Together with the existing card you can build up e.g. a RAID system.
