\*Make sure that the product package contains all items before operation. If any item is missing or damaged, then please contact your dealer immediately.

## Hardware Installation

### Note:

Follow the general instructions for installation of the card. If necessary, read the manual of your computer, or ask a specialist for help.

1. Turn off your PC, and unplug the power cord.
2. Open the housing.
3. Remove the slot holder from the available PCI Express slot.
4. Insert the card straight and carefully into the free PCI Express slot, until it is well seated.
5. Use a screw to attach the card to the housing.
6. Reattach the housing, and connect the power cord to the AC adapter.

---

## **Driver Installation**

1. When the installation of the device is finished, the driver will be automatically installed after you restart the computer.
2. You can start using the device immediately.
