

Delock Adapter mini DisplayPort 1.2 male with screw > DVI female 4K Active black

Description

This adapter enables you to connect e.g. a DVI monitor through a free mini DisplayPort interface. The adapter supports a resolution up to Ultra HD (4K) and is backward compatible to Full-HD 1080p. The adapter offers an active conversion, thus it is also suitable for graphics cards that are not capable of outputting DP++ signals. The screw of the mini DisplayPort connector secures the connection and prevents accidental unplugging of the cable.

Specification

- Connector: mini DisplayPort 20 pin male with screw > DVI-I (Dual Link) 24+5 female
- Screw type: #4-40, thread type UNC, thread class 3A, American Standard Screw
