

Delock Laser Distance Meter 3 cm - 40 m

Description

This distance meter by Delock is used for the laser-assisted **measurement of indoor and outdoor distances, areas and angles**. The built-in class 2 laser allows a precise measurement with a **tolerance of ± 2 mm**. The 180 mAh rechargeable battery can be charged via the USB Type Micro-B female port.

All information at a glance

The easy to read **backlight LCD display** shows all important information at a glance. The four latest measurement results, measurement method and battery charge status can be read off.

Small and handy design

Due to the small and handy design, the device can be easily transported and **fits into any pocket**. An included loop can be attached directly to the device and secures the distance meter against falling or the like.

Specification
