Delock Cable High Speed HDMI with Ethernet - HDMI-A male > HDMI Micro-D male 3D 4K 4.5 m Active Slim High Quality

Descriere scurta

This High Quality High Speed HDMI with Ethernet cable by Delock enables the connection between a camera or tablet with Micro HDMI interface and a monitor or TV with an HDMI-A port. It stands out due to its slim diameter and its short connectors. The triple shielded cable combines fast data transfer as well as audio- / video- and Ethernet connection. Due to the support of a maximum bandwidth of 18 Gb/s, 4K content (maximum frame rate 60 Hz), 3D content in 4K resolution (maximum frame rate 24 Hz) and content in 21:9 cinema aspect ratio can now be displayed. The cable allows the simultaneous transmission of two video channels to display video streams for two users on one screen, as well as the simultaneous transmission of up to four audio channels. The quality of audio transmissions is significantly improved by the sampling rate of up to 1536 kHz.
