

Delock Cable DC 5.5 x 2.1 mm male to open wire ends 30 cm angled

Description

This terminal block cable by Delock can be used to connect bare wires. Thus the cable is not only convenient for special industry applications, but also for the hobby area, e.g. railway modelling. Various devices with a suitable DC power connector can be connected to the cable and are supplied with power individually (depending on the requirements of the device).
