Description

This Thunderbolt™ 3 docking station by Delock can be connected to a computer with a Thunderbolt™ 3 port and provides a variety of interfaces. The Thunderbolt™ 3 port supports a resolution up to 5K and is compliant to USB, therefore it is possible to connect all USB Type-C™ devices. Two 4K monitors can be operated simultaneously at the Thunderbolt™ 3 and HDMI outputs. Five built-in USB Type-A ports allow the use of peripherals.
